## CORE COMPETENCIES

- **IT Strategy & Modernization** — Roadmapping, legacy system modernization, and aligning technology with mission and regulatory requirements.
- **Project Management (PMO Development)** — Standing up and managing PMOs for large federal, state, and regulated-industry IT initiatives.
- **Systems Implementation & Integration** — Deploying and integrating enterprise platforms, including case management, claims, EHR/EMR, and cloud solutions.
- **Data Management & Analytics** — Improving data quality, governance, and accessibility to support policy, claims, and clinical decision-making.
- **AI & Automation Enablement** — Applying AI and workflow automation to reduce manual workload and improve operational efficiency.
- **IT Operations & Process Optimization** — Strengthening IT service delivery, compliance, and cross-functional workflows in mission-critical environments.

## ABOUT THE COMPANY

The Paradigm Group Inc. (TPGI) is a SWAM- and DBE-certified IT consulting firm serving clients across Virginia, West Virginia, and Georgia. We help organizations strengthen their technology environments and operate with greater efficiency, clarity, and resilience. Our core capabilities include IT strategy, systems modernization, AI integration, data analysis, and executive-level advisory services. By aligning technology with mission and operations, TPGI enables clients to streamline processes, improve decision-making, and accelerate digital transformation. We partner with public- and private-sector organizations to enhance leadership effectiveness, optimize performance, and build the technology-enabled infrastructure needed to stay competitive in a rapidly evolving landscape.

## PAST PERFORMANCE

Client	Contract # and Name	Size and Contract Amount	Period of Performance
